Betreft adoption of NexBo recommendations ETA and KPI's

Ons kenmerk
IENW/BSK-2018/35303

Dear colleagues of the RFC networks of executive boards,

Following the terms of reference as adopted for the network of RFC executive boards we inform you that the following annexed recommendations are adopted unanimously February 7th by all EU+CH+N Member States cooperating in the executive boards of the rail freight corridors:

- Recommendation NexBo number 1 on Estimated Time of Arrival;
- Recommendation NexBo number 2 on common Key Performance Indicators for the rail freight corridors.

It is now up to each executive board to implement / apply and publish the recommendation in collaboration with its RFC management board. For the recommendation on KPI's we will include, following a suggestion by Danish colleagues, an agenda point on our next meeting 16th May 2018 to discuss the (possible) further development of the KPI's.

Kind regards,

Co-chairs of the network of RFC executive boards,

Peter Hondebrink (Dutch ministry)

Thomas Spiegel (Austrian ministry)
